He is not much of a singer, so far as the quality of his music goes, but he is always willing to give you a sample of the best he can do in that line, and the effect is not unpleasant to the human ear. In fact, the robin is an all-round good fellow and is always ready to be friendly and serviceable if given half a chance.

It is to be regretted that our neighbors in Tennessee are not giving the robin even half a chance, but are murdering him in cold blood. There really seems to be no reason for it except that the robins are worth ten cents a dozen. That also would seem to be about the proper market quotation for either for pleasure or profit.

If the cost of living continues to increase, the masses of the people will awaken to the truth, already realized of a few leaders - that there is a vital relation between legislation and life, and that the quarrels between political leaders of the Aldrich-Cannon type, and those who would see them succeeded by others, involve issues bigger than personalities.

"Bibles are now about 20 per cent higher than they have ever been before," said a member of the firm. Better seed means care in selection and curing means the establishment of a breeding plot and the raising by the farmer of his own pure bred seed. ## Merely a Suggestion.

There are a number of extensive improvements to be made in Paris in the near future, one for instance is the erection of the big steel bridge ever Houston Creek y the L. & N. in place of the present iron stucture. Now we want to suggest that the Paris Commercial Club, the city and county officials and all enterprising citizers of this community, join hands and make every effort to have the big abuttment of the L. & N. bridge on North Main moved back farther so the dangerous and the community of the L. & N. bridge on North Main moved back farther so the dangerous arrays on Main attent at this point are curve on Main street at this point can be remedied. This has for years been a dangerous part of Main street, and while it might cost a considerable sum to improve this abrupt curve, yet it 15 2t would be one of the greatest improvements that could be made in Paris. The driver of a vehicle in going down the hill on North Main cannot see a vehicle coming in the opposite direction until they meet on the sharp curve under the bridge. A number of accidents have taken place at this point and the time is now at hard for this improvement. Let everybody be-gin talking and get the ball to rolling and public sentiment will do the rest.

G. C. Waggoner, of Henry county, made another futile attempt to set aside the rules Friday and force vote in the Kentucky House on his county unit bill. To do this, it was necessary for him to get a two thirds vote on his motion to set aside the rules. He was able to muster but fifty-four votes thirty-one Represents. fifty-four votes, thirty-one Representatives voting against the motion.

troubled sleep, by sour stomach and distress after eating, by bad complexion and lusterless eyes.

There is no surer and speedier cure for this trouble than Dr. Caldwell's Syrup Pepsin, which dyspeptics have been using successfully for twenty years. This great herb laxative compound cured Capt. Clark, of Buffalo, Ia., of dyspepsia and sour stomach that he had had for forty years, or until the lucky day that he heard of Dr. Caldwell's Syrup Pepsin. It cured Joel Adams, of Montgomery, Ala., after suffering continuously for sixteen months. These are only a few of the many. But it is not expensive to be cured with this grand remedy, as it can be bought at any drug store in a 50-cent or \$1 bottle.

Your very neighbors are probably lifelong users of Dr. Caldwell's Syrup Pepsin, but if you want to know without expense what it will do for you personally, send your name to Dr. Caldwell and he will be glad to send you a free trial bottle. He is actually anxious to have you make a test of his remedy.

Thousands of families everywhere keep it in the house against such an emergency as constipation, sour stomach, indigestion, billiousness, dyspepsia, heartburn, torpid liver, etc., which may come on a member of the family any day. It is pleasant to the taste, acts gently and does not gripe. It is the great children's laxative tonic.

#### Serious Charge Against State Senators.

The closing session of the annual convention of the Kentucky Ant-Saloon League was thrown into a turmoil at Frankfort Monday afternoon when Senator J. J. Watkins, smarting under the treatment his anti-whiskey measures have received in the Legislature made the sensational charge that four Senators had sold out to the liquor interests. He was speaking be-

A committee was appointed in the Senate Tuesday to make thorough investigation of these charges.

The Fate of the Oneida.

One of the most extraordinary catastrophles that have befallen vessels of the United States destroyed the sloop of war Oneida in 1869. She was bound homeward, with a jolly ship's company, eager to see wives and sweethearts and native land once more, when not far out of port she was pepsia, or, as it is also known, indigestion. The laborer in the street, the worker in the field also finds himself a victim of this disorder. Among the very greatest sufferers from it are distress were immediately fired, but the Bombay steamed on her way and left the vessel to ber doom. She went down, and all but one or two of her crew were drowned. The captain of the Bombay gave no other reason for his conduct than that he had Lady Eyre, the wife of a distinguished British satrap, on board and did not wish to disturb her nerves with scenes of shipwreck. He was mobbed when he reached Yokohama, dismissed from the service, socially tabooed from that time on and died in disgrace a year or two later.

Where Hypnotism Failed.

When Daysey Mayme Appleton returned recently from a party where the influence of several minds over one had been the evening's entertainment and told her mother how six girls. with their minds bent on one thought, had made a man stand on his head. another man at their silent command had tried on a woman's hat and another man had tried to eat water with a fork, it put a suggestion into Mrs. Lysander John Appleton's brain. That evening when Lysander John came home his wife and four daughters sat in a circle with their hands covering their faces and their heads bowed. To all his inquiries they said nothing, and at last, fearing they had gone mad, he sent for the doctor. "We concentrat. ed our minds on the thought that Lysander John must give us \$5 each, and instead of that we have a doctor bili to pay," sobbed Mrs. Appleton, "and they said it would be particularly easy to work if the man's mind was a

The thirty-seventh legislative day of the present session of the Kentucky Legislature has passed and as yet not one bill has been passed by both houses and prescribed to the Governor. But fifteen days more remain till the rules committees in both houses take charge of all bills and decide what measures shall come to a vote.
